About Atharav Tech Solutions

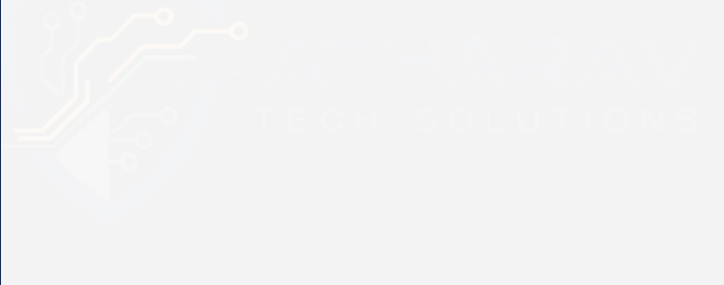

Atharav Tech Solutions is a leading provider of professional industrial UAV systems, security devices, and authentication technologies headquartered in New Delhi. We specialize in composite-material UAV airframes, PNP flight platforms, UAV spare parts manufacturing, and fully customized drone solutions.

Our product range — spanning multi-rotor, vertical take-off and landing (VTOL) compound-wing, and fixed-wing platforms — is widely deployed in public security, fire protection, power inspection, precision agriculture, environmental monitoring, and geographic surveying.

With more than 10 patents in drone structural design, a youthful engineering team, and a complete in-house service chain covering design, simulation, mold fabrication, production, calibration and after-sales support, Atharav Tech Solutions is your trusted one-stop drone technology partner.

Core Competencies

- Aircraft Production & Manufacturing
- Advanced Production Techniques
- High-Volume Production Capability
- Aircraft Design & Development
- Efficient R&D Processes
- Professional Design Team
- Customized Application Solutions
- Industry-Specific R&D
- Application Outsourcing Services
- UAV Maintenance & Servicing

UAV PRODUCT SERIES

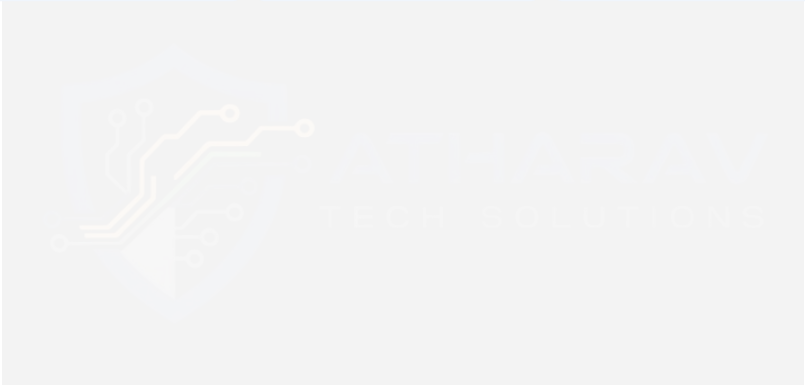

One-Stop Solution Provider for UAVs

MULTIROTOR UAVs

ATS-24 60 KG	ATS-25 7 KG	ATS-26 5 KG	ATS-27 5 KG	ATS-28 3 KG	ATS-29 5 KG	ATS-30 8 KG
------------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

VERTICAL TAKEOFF COMPOUND WING UAVs

ATS-11 2.5 KG	ATS-12 2.5 KG	ATS-13 5 KG	ATS-14 10 KG	ATS-15 5 KG	ATS-16 13 KG	ATS-17 15 KG
ATS-18 10 KG	ATS-19 15 KG	ATS-20 40 KG	ATS-21 40 KG	ATS-22 40 KG	ATS-23 50 KG	

ATS-24

Carbon Fiber Monocoque Frame (Octocopter)

MAX PAYLOAD: 60 KG

DURATION: 50 min @ 50 KG

PERFORMANCE PARAMETERS

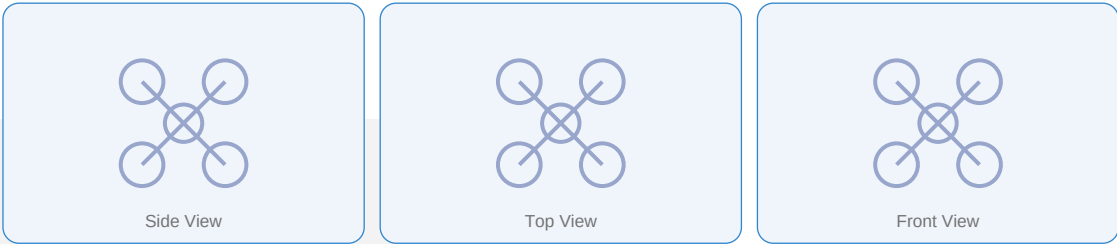

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	1.5 mm
Manufacturing Process	Compression + Internal Pressure
Wheelbase	2400 mm
Overall Height	1000 mm
Shell Weight	15.5 KG
Max Payload	60 KG
Duration	50 min @ 50 KG
No-load Endurance	55 min (4× 14S 35000mAh Battery)
Max Prop Size	60 Inch

ATS-24

Carbon Fiber Monocoque Frame (Octocopter)

The ATS-24 is an advanced carbon fiber monocoque frame (octocopter) designed for demanding professional operations. With a maximum payload capacity of 60 KG and an endurance of 50 min @ 50 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-25

Carbon Fiber Monocoque Frame (Hexacopter)

MAX PAYLOAD: 7 KG

DURATION: 60 min @ 2 KG

PERFORMANCE PARAMETERS

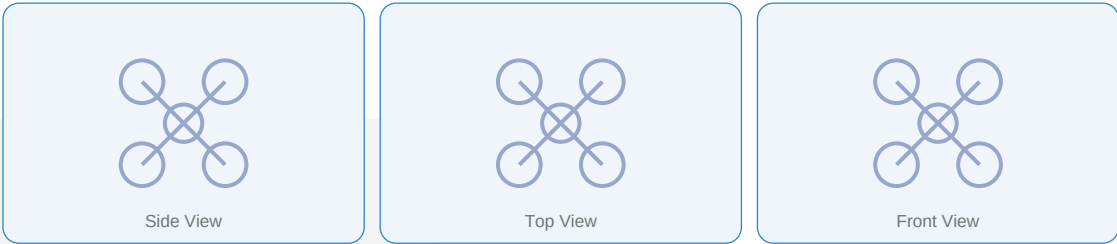

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.6 mm
Manufacturing Process	Internal Pressure Forming
Wheelbase	1600 mm
Overall Height	500 mm
Shell Weight	2200 g
Max Motor	Series 8
Max Prop Size	29 Inch
Max Payload	7 KG
Duration	60 min @ 2 KG

ATS-25

Carbon Fiber Monocoque Frame (Hexacopter)

The ATS-25 is an advanced carbon fiber monocoque frame (hexacopter) designed for demanding professional operations. With a maximum payload capacity of 7 KG and an endurance of 60 min @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-26

Carbon Fiber Monocoque Frame (Hexacopter)

MAX PAYLOAD: 5 KG

DURATION: 50 min @ 2 KG

PERFORMANCE PARAMETERS

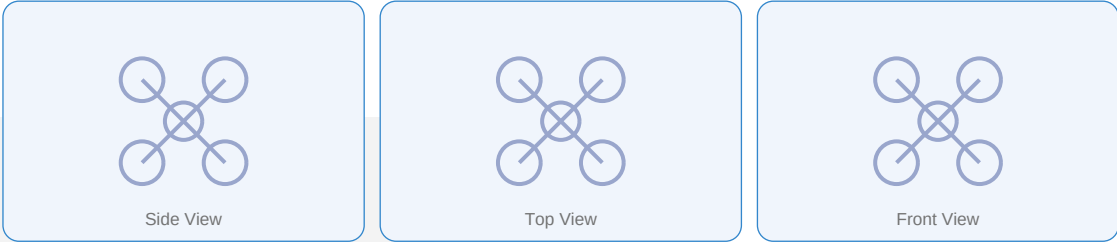

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.6 mm
Manufacturing Process	Internal Pressure Forming
Wheelbase	1200 mm
Overall Height	500 mm
Shell Weight	2100 g
Max Motor	Series 6
Max Prop Size	22 Inch
Max Payload	5 KG
Duration	50 min @ 2 KG

ATS-26

Carbon Fiber Monocoque Frame (Hexacopter)

The ATS-26 is an advanced carbon fiber monocoque frame (hexacopter) designed for demanding professional operations. With a maximum payload capacity of 5 KG and an endurance of 50 min @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-27

Carbon Fiber Monocoque Frame (Hexacopter)

MAX PAYLOAD: 5 KG

DURATION: 50 min @ 2 KG

PERFORMANCE PARAMETERS

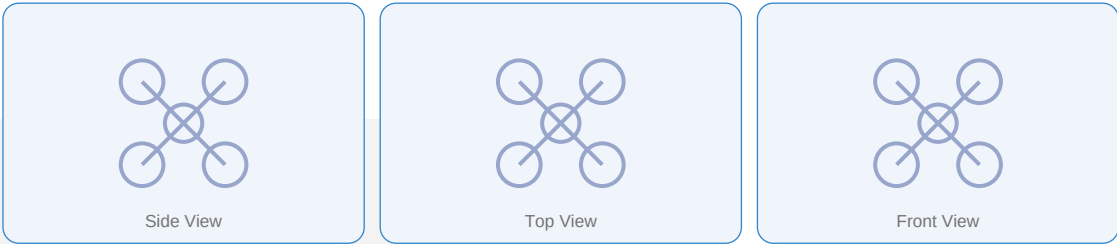

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.6 mm
Manufacturing Process	Internal Pressure Forming
Wheelbase	1130 mm
Overall Height	600 mm
Shell Weight	2200 g
Max Motor	Series 6
Max Prop Size	21 Inch
Max Payload	5 KG
Duration	50 min @ 2 KG

ATS-27

Carbon Fiber Monocoque Frame (Hexacopter)

The ATS-27 is an advanced carbon fiber monocoque frame (hexacopter) designed for demanding professional operations. With a maximum payload capacity of 5 KG and an endurance of 50 min @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-28

Carbon Fiber Monocoque Frame (Quadcopter)

MAX PAYLOAD: 3 KG

DURATION: 40 min @ 2 KG

PERFORMANCE PARAMETERS

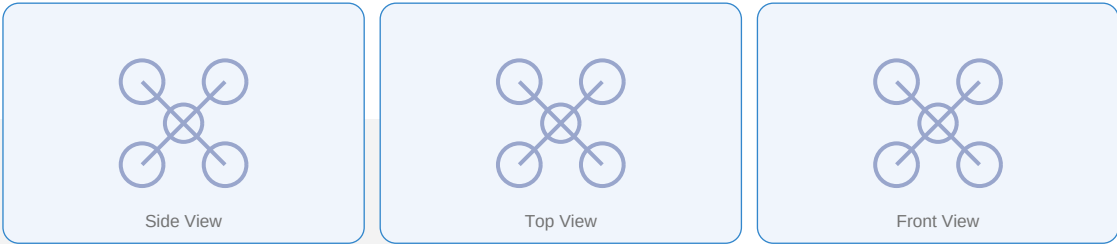

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.6 mm
Manufacturing Process	Internal Pressure Forming
Wheelbase	830–960 mm
Overall Height	500 mm
Shell Weight	1900 g
Max Motor	Series 6
Max Prop Size	21 Inch
Max Payload	3 KG
Duration	40 min @ 2 KG

ATS-28

Carbon Fiber Monocoque Frame (Quadcopter)

The ATS-28 is an advanced carbon fiber monocoque frame (quadcopter) designed for demanding professional operations. With a maximum payload capacity of 3 KG and an endurance of 40 min @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-29

Carbon Fiber Monocoque Frame (Quadcopter)

MAX PAYLOAD: 5 KG

DURATION: 60 min @ 2 KG

PERFORMANCE PARAMETERS

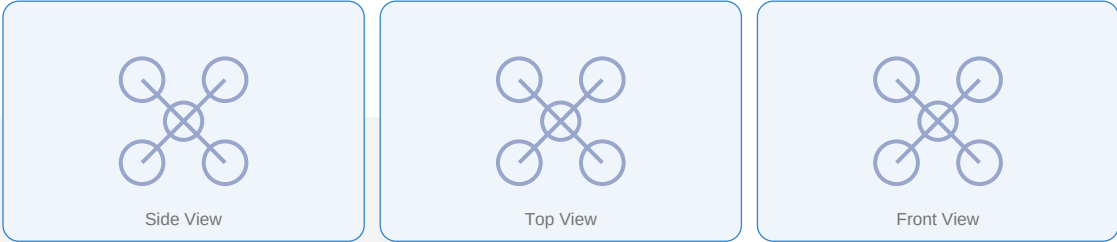

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.6 mm
Manufacturing Process	Internal Pressure Forming
Wheelbase	1200 mm
Overall Height	500 mm
Shell Weight	1700 g
Max Motor	Series 8
Max Prop Size	29 Inch
Max Payload	5 KG
Duration	60 min @ 2 KG

ATS-29

Carbon Fiber Monocoque Frame (Quadcopter)

The ATS-29 is an advanced carbon fiber monocoque frame (quadcopter) designed for demanding professional operations. With a maximum payload capacity of 5 KG and an endurance of 60 min @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-30

Carbon Fiber Monocoque Frame (Heavy Hexacopter)

MAX PAYLOAD: 8 KG

DURATION: 60 min @ 5 KG

PERFORMANCE PARAMETERS

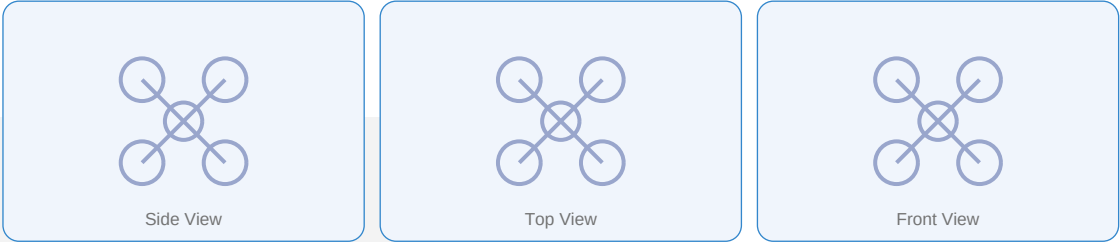

Fuselage Material	TORAY 3K Carbon Fiber
Shell Thickness	0.7 mm (Customizable)
Manufacturing Process	Internal Pressure Forming
Wheelbase	1600 mm
Overall Height	600 mm
Shell Weight	3400 g
Max Motor	Series 8 / 10 / 12
Max Prop Size	30 Inch
Max Payload	8 KG (Customizable up to 20 KG)
Duration	60 min @ 5 KG

ATS-30

Carbon Fiber Monocoque Frame (Heavy Hexacopter)

The ATS-30 is an advanced carbon fiber monocoque frame (heavy hexacopter) designed for demanding professional operations. With a maximum payload capacity of 8 KG and an endurance of 60 min @ 5 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-11

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 2.5 KG

DURATION: 2.5 H @ 1.5 KG

PERFORMANCE PARAMETERS

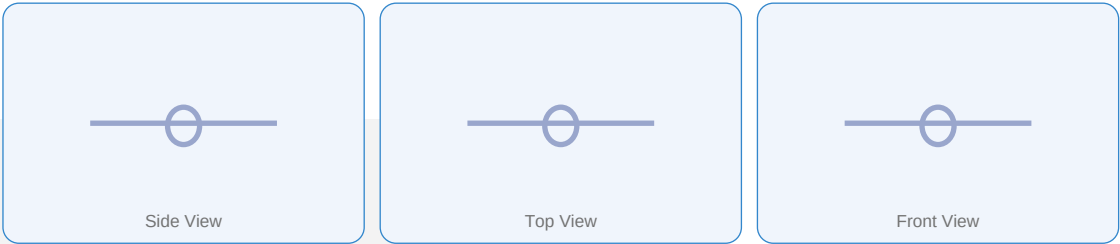

Overall Dimension	2.1m x 0.98m x 0.24m
Max Take-off Weight	14 KG
Max Payload	2.5 KG
Duration	2.5 H @ 1.5 KG
Cruising Speed	20 m/s
Max Flight Altitude	4800 m
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7
Waterproof Class	IP54
Transport Box Size	1570 x 620 x 375 mm

ATS-11

Vertical Takeoff Compound Wing UAV

The ATS-11 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 2.5 KG and an endurance of 2.5 H @ 1.5 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-12

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 2.5 KG

DURATION: 3.5 H @ 1.2 KG

PERFORMANCE PARAMETERS

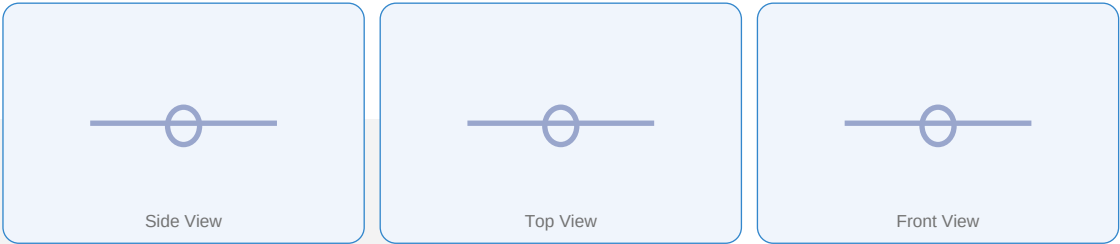

Overall Dimension	2.5m x 1.26m x 0.39m
Max Take-off Weight	14 KG
Max Payload	2.5 KG
Duration	3.5 H @ 1.2 KG
Cruising Speed	20 m/s
Max Flight Altitude	4800 m
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7
Waterproof Class	IP54
Transport Box Size	1470 x 560 x 400 mm

ATS-12

Vertical Takeoff Compound Wing UAV

The ATS-12 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 2.5 KG and an endurance of 3.5 H @ 1.2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-13

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 5 KG

DURATION: 3.5 H @ 2 KG

PERFORMANCE PARAMETERS

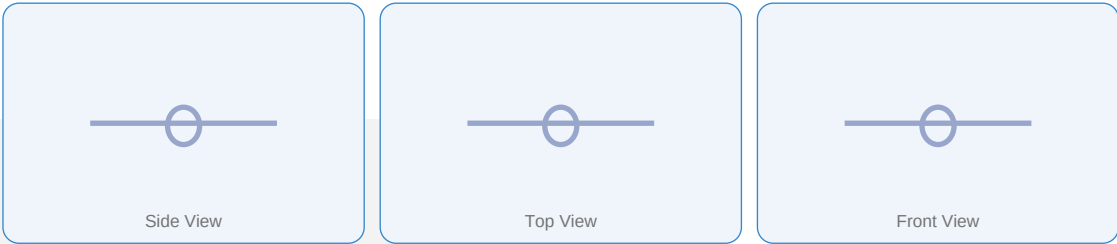

Overall Dimension	3.2m x 1.83m x 0.46m
Max Take-off Weight	30 KG
Max Payload	5 KG
Duration	3.5 H @ 2 KG
Cruising Speed	21 m/s
Max Flight Altitude	4200 m
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7
Waterproof Class	IP54
Transport Box Size	1800 x 680 x 480 mm

ATS-13

Vertical Takeoff Compound Wing UAV

The ATS-13 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 5 KG and an endurance of 3.5 H @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-14

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 10 KG

DURATION: 2.6 H @ 5 KG

PERFORMANCE PARAMETERS

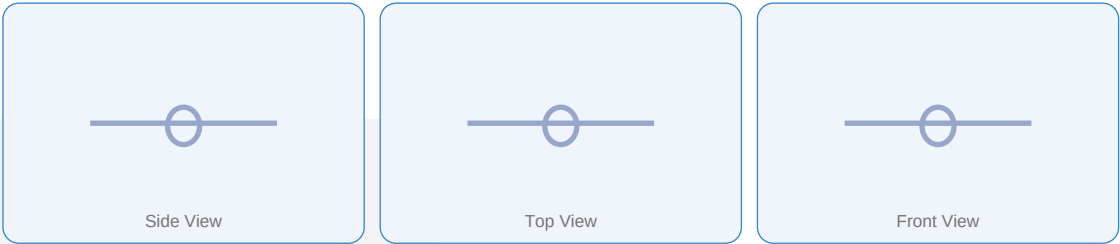

Overall Dimension	3.5m x 1.88m x 0.64m
Max Take-off Weight	35 KG
Max Payload	10 KG
Duration	2.6 H @ 5 KG
Cruising Speed	21 m/s
Max Flight Altitude	4200 m
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7
Waterproof Class	IP54
Transport Box Size	2105 x 735 x 500 mm

ATS-14

Vertical Takeoff Compound Wing UAV

The ATS-14 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 10 KG and an endurance of 2.6 H @ 5 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-15

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 5 KG

DURATION: 3.7 H @ 2 KG

PERFORMANCE PARAMETERS

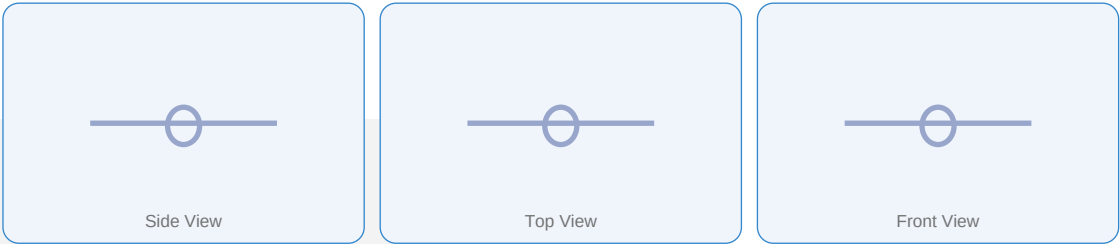

Overall Dimension	3.95m x 1.83m x 0.57m
Max Take-off Weight	31 KG
Max Payload	5 KG
Duration	3.7 H @ 2 KG
Cruising Speed	21 m/s
Max Flight Altitude	4200 m
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7
Waterproof Class	IP54
Transport Box Size	2000 x 650 x 480 mm

ATS-15

Vertical Takeoff Compound Wing UAV

The ATS-15 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 5 KG and an endurance of 3.7 H @ 2 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-16

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 13 KG

DURATION: 2 H @ 12 KG

PERFORMANCE PARAMETERS

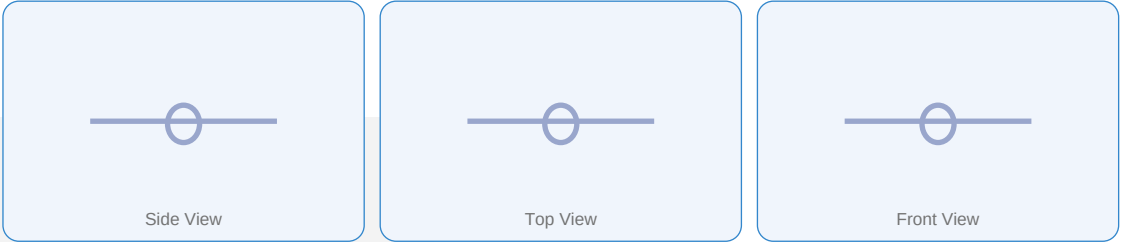

Wingspan	5.2 m
Max Take-off Weight	64 KG
Max Payload	13 KG
Duration	2 H @ 12 KG
Design Takeoff Weight	60 KG
Flight Speed	28 m/s
Max Rate of Climb	6 m/s
Max Descent Rate	5 m/s @ 60 KG
Wind Resistance	Level 6 / Takeoff: Level 5

ATS-16

Vertical Takeoff Compound Wing UAV

The ATS-16 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 13 KG and an endurance of 2 H @ 12 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-17

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 15 KG

DURATION: 4 H @ 10 KG

PERFORMANCE PARAMETERS

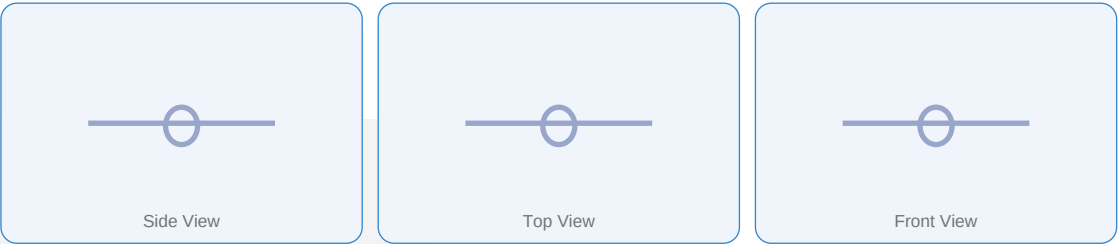

Wingspan	3.8 m
Max Take-off Weight	55 KG
Max Payload	15 KG
Duration	4 H @ 10 KG
Cruise Speed	108 km/h
Max Level Flight Ceiling	3000 m
Max Fuel Capacity	12 L / 20 L
Fixed-Wing Wind Resistance	Level 6
Rotor Mode Wind Resistance	Level 5

ATS-17

Vertical Takeoff Compound Wing UAV

The ATS-17 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 15 KG and an endurance of 4 H @ 10 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-18

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 10 KG

DURATION: 4 H @ 5 KG

PERFORMANCE PARAMETERS

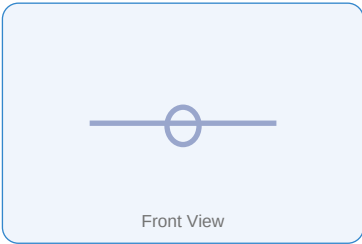

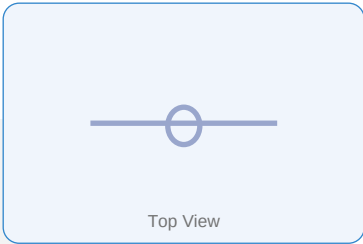

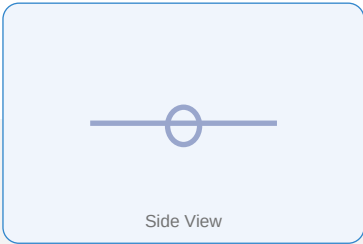

Overall Dimension	4.42m x 2.075m x 0.788m
Max Take-off Weight	40 KG
Max Payload	10 KG
Duration	4 H @ 5 KG
Cruising Speed	20 m/s
Max Flight Altitude	6000 m
Oil Tank Capacity	8 L
Engine	LiDe 70 Two-Stroke
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7

ATS-18

Vertical Takeoff Compound Wing UAV

The ATS-18 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 10 KG and an endurance of 4 H @ 5 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

PRODUCT VIEWS

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-19

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 15 KG

DURATION: 10 H @ 8 KG

PERFORMANCE PARAMETERS

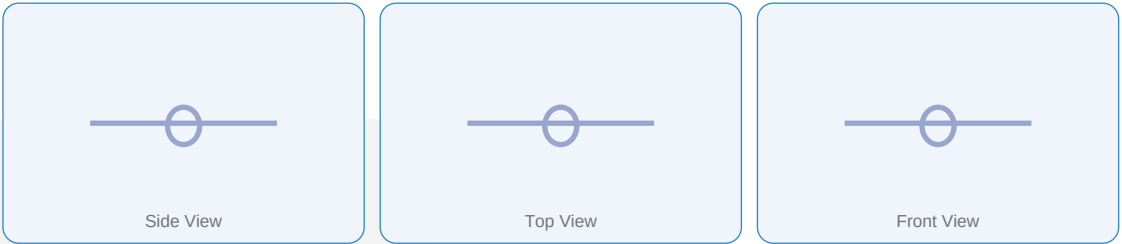

Overall Dimension	4.80m x 2.79m x 0.51m
Max Take-off Weight	64 KG
Max Payload	15 KG
Duration	10 H @ 8 KG
Cruising Speed	37 m/s
Max Flight Altitude	6000 m
Oil Tank Capacity	26 L
Engine	LiDe 170 Two-Stroke
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7

ATS-19

Vertical Takeoff Compound Wing UAV

The ATS-19 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 15 KG and an endurance of 10 H @ 8 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

APPLICATIONS

- Public Security
- Power Inspection
- Environmental Monitoring
- Fire Protection
- Precision Agriculture
- Geographic Surveying

ATS-20

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 40 KG

DURATION: 12 H @ 20 KG

PERFORMANCE PARAMETERS

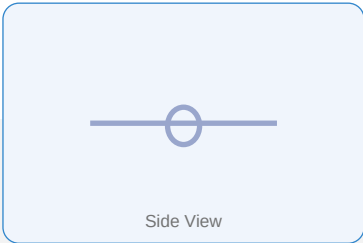

Overall Dimension	6.19m x 3.57m x 1.27m
Max Take-off Weight	≤ 135 KG
Max Payload	40 KG
Duration	12 H @ 20 KG
Cruising Speed	30 m/s
Max Flight Altitude	5000 m
Oil Tank Capacity	34 L
Engine	LiDe 290 Two-Stroke
Wind Resistance	VTOL: Level 5 / Fixed-Wing: Level 6

ATS-20

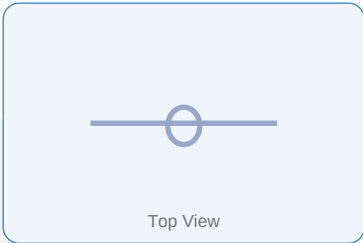

Vertical Takeoff Compound Wing UAV

The ATS-20 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 40 KG and an endurance of 12 H @ 20 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

ATS-21

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 40 KG

DURATION: 5 H @ 20 KG

PERFORMANCE PARAMETERS

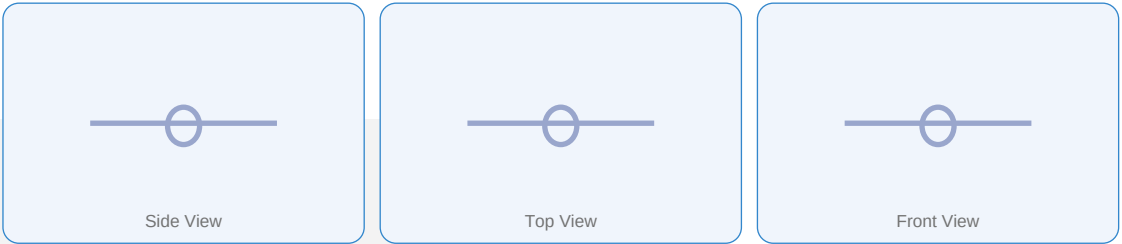

Overall Dimension	6.935m x 3.270m x 1.307m
Max Take-off Weight	150 KG
Max Payload	40 KG
Duration	5 H @ 20 KG
Cruising Speed	35 m/s
Max Flight Altitude	6000 m
Oil Tank Capacity	35 L
Engine	LiDe 290 Two-Stroke
Wind Resistance	VTOL: Level 6 / Fixed-Wing: Level 7

ATS-21

Vertical Takeoff Compound Wing UAV

The ATS-21 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 40 KG and an endurance of 5 H @ 20 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

ATS-22

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 40 KG

DURATION: 5 H @ 25 KG

PERFORMANCE PARAMETERS

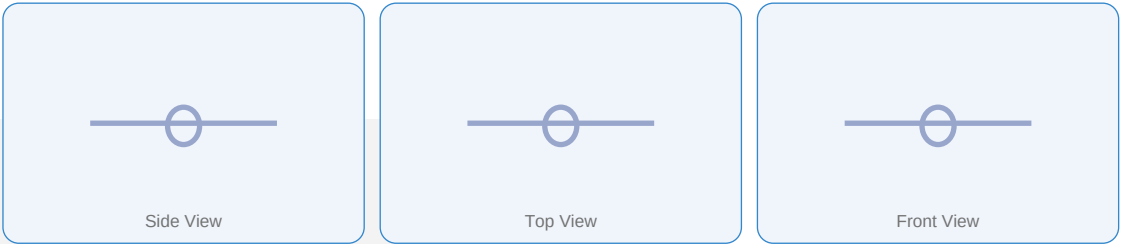

Wingspan	7.3 m
Max Take-off Weight	180 KG
Max Payload	40 KG
Duration	5 H @ 25 KG
Cruise Speed	110 km/h
Max Level Flight Ceiling	3000 m
Max Fuel Capacity	50 L
Fixed-Wing Wind Resistance	Level 6–7
Rotor Mode Wind Resistance	Level 5

ATS-22

Vertical Takeoff Compound Wing UAV

The ATS-22 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 40 KG and an endurance of 5 H @ 25 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.

ATS-23

Vertical Takeoff Compound Wing UAV

MAX PAYLOAD: 50 KG

DURATION: 12 H @ 30 KG

PERFORMANCE PARAMETERS

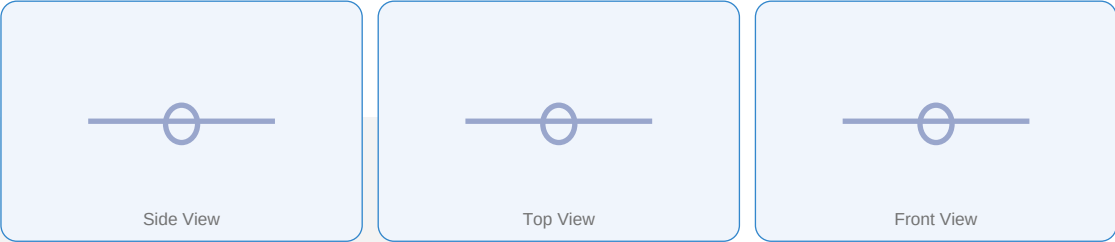

Total Length	4.5 m
Wingspan	8.2 m
Max Take-off Weight	220 KG
Max Payload	50 KG
Duration	12 H @ 30 KG
Design Takeoff Weight	180 KG
Flight Speed	28 m/s
Max Rate of Climb	6 m/s
Wind Resistance	Level 6 / Takeoff: Level 5

ATS-23

Vertical Takeoff Compound Wing UAV

The ATS-23 is an advanced vertical takeoff compound wing uav designed for demanding professional operations. With a maximum payload capacity of 50 KG and an endurance of 12 H @ 30 KG, it delivers exceptional performance across public security, surveying, inspection, logistics, and emergency response missions. Built with premium composite materials and engineered for reliability, it represents Atharav Tech Solutions' commitment to next-generation aerial technology.
